

COVID-19

The safety of our patrons and staff ALWAYS has and ALWAYS will be our #1 priority while providing frightful entertainment at Fright Kingdom 12 Simon St, Nashua New Hampshire.

We care deeply about our family of staff, loyal patrons and the incredibly supportive community surrounding us. We always have recognized that patrons and staff place their trust in us to provide a scary, fun and entertaining experience; however, they trust that we have also taken many measures to ensure their absolute safety. Our commitment has not changed due to the unfortunate result of COVID-19. This plan will outline the added steps Fright Kingdom is taking to ensure additional cleanliness and safety measures are in place for safe operation. While this outline may change experience expectations and traditional operation of Fright Kingdom, our goal is to provide frightfully safe entertainment that patrons and staff expect from one of the top-rated haunted attractions in the country. Fright Kingdom will do all of this while complying with and/or exceeding federal and local government guidelines.

We will continue to closely monitor government policy changes, recommendations by the Center for Disease Control (CDC), state mandates and local guidance. This plan has been developed with research and consultation from local, national, and international personnel and other similar attraction operators from theme parks to large public venues, to other haunted attractions and we will make changes/modifications as needed.

Tim Dunne and Angela Dunne
Owners and Operators

COVID-19 PATRON PROTOCOLS AND SAFETY

✓ **ADVERTISEMNT AND COMMUNITATION:** Fright Kingdom typically communicates with their patrons via our direct website (www.frightkingdom.com) or various social media platforms (Facebook, Twitter and Instagram). To ensure our patrons are prepared for the expected changes, Fright Kingdom will utilize the above-mentioned medias methods to provide the safety protocols and requirements prior to arrival. In addition, there will be increase signage, videos and audio direction to provide both inside and outside the attraction. Our goal is to ensure our customers are aware and uphold their part of the safety responsibilities.

✓ **ARRIVAL AND ENRTY INTO BUILDING OF OPERATION:** Upon arrival to Fright Kingdom, patrons will walk from their vehicle to the outside queue lines and will stop at the next available “X” spot marker. “X” Spot Markers will be identified on the ground and will be at least six feet apart in all directions. These pre-marked “X” spots will continue from the parking lot, to the ticket booth, into the midway, up to the front of the first attraction and in the reset queue lines between attractions. Groups that are part of the same party that traveled together can collect on the same “X” spot marker as a “family unit”, with a maximum of 7 per “X” spot marker. A “family unit” will stay together throughout the experience.

Prior to patrons entering into the building, they must satisfy the following requirements prior to entering the facility. All Patrons must:

- Have temperature taken. (any reading over 100.4 degrees will result in immediate dismissal from the property)
- Verbal affirmation to Health and Exposure Survey: Series of questions to gauge possible COVID-19 symptoms or exposure (see appendixes item A)
- Be wearing a mask or face shield that covers their nose and mouth during the entire time on Fright Kingdom property (face masks will be available for purchase if needed)
- Have hands sanitized prior to entry (hand sanitizing stations will also be available throughout the entire attraction)

Any patrons not agreeing to the terms of entry will not be allowed to enter the Fright Kingdom building.

✓ **TICKETING:** Online ticketing and cashless transactions will be HIGHLY encouraged in all communication to minimize the exposure time at the ticket booth. The ticket booth will be staffed by cashier wearing mask and have a plexiglass barrier.

✓ **HAUNTED EXPERIENCE:** The physical scare attractions will be greatly modified to ensure the following:

- The midway area will be transitioned into a queue line staging area where each “family unit” will follow lines until it is their turn to enter the attractions
- The majority of actors will not come within 6 feet of a patron
- Some actors will be 100% separated via a set barrier (example- Plexiglass or in actor hallway)
- For front of house actors who may be closer than 6 feet, they will have double PPE (mask and face shield)
- All haunt props that may have made contact with a patron will be removed for a full “touch free” experience (examples: Body Bags, Fear Flaps, Darkness Maze)
- Groups will travel with their “family unit” and will not come in contact with another “family unit”
- Key staff members are equipped with two-way radios to communicate any safety or protocol concerns about patrons to director of operations and security

ADDITIONAL SAFETY MEASURES

✓ **HAND SANITIZING STATIONS-** Hand sanitizing stations will be available through the entire operation

✓ **INCREASED CLEANLINESS** – Additional staff will be assigned to manage the cleanliness of high-volume areas and commonly used facilities such as porta potties. Attraction managers and supervisors will routinely clean and sanitize commonly used areas, both front of house and back of house operations. Cleaning rotations will include, but not limited to doorknobs, handrails, restrooms and porta potties.

✓ **SIGNAGE** – Signs will be posted throughout the Park and with every hand sanitizer station to serve as a reminder to abide by government guidelines and the safety measures in place to protect all visitors.

✓ **ATTRACTION LINES** – Signs will be posted to promote the use of social/physical distancing while in line to any attraction to encourage a distance of 6 feet between each group.

✓ **DIGITAL BILLBOARDS** – There are various digital billboards and a movie screen that will routinely promote government guidelines and this contingency plan.

✓ **LIMIT TOUCH** – As a continued effort to keep everyone safe and keep up with sanitation, we ask all guests to limit touch in every area of the park. This includes but is not limited to; ropes in que lines, surfaces on the Midway and objects inside of the attractions.

✓ **PATRON MONITOR-** The use of security cameras and key personal, along with two-way radios will allow line of sight into patrons that are not following the rules. Any patrons not following the required rules after one warning will be escorted out of Fright Kingdom immediately.

✓ **AIR CHANGE-** Fright Kingdom has the ability to operate high power air exchange devices that will remove existing indoor air and replace with fresh outdoor air.
